

What's New at CTC?

CTC Staff in the Spotlight

Revised Ferry Schedule!

Kim Munroe

Kim Munroe has worked for CTC for 22 years! This picture was taken in her first year with the company.

Kim's father worked for IBM and the family moved frequently. She has lived in NY, FL, CT, CO, and CA, to name a few places. Kim has 5 brothers (including Captain Darren) and 3 sisters. She met her husband Ralph after moving to Harpswell to be near her mother. Ralph and Kim met at a dance on Orrs Island and were married in 1989 on Chebeague. They have two daughters, Lida (20) and Megan (18).

Kim has filled many jobs at CTC including parking lot attendant, deckhand, bus driver, and barging and charter deckhand. The only job she hasn't had is captain (although she knows how to run the ferry!).

Kim has given her all to CTC. For a couple of years she worked seven days per week (from the first boat to the last) from Labor Day to Columbus Day alternating between deckhand and bus driver!

Kim says the biggest benefit of working at CTC is that it lets her stay on the Island close to family.

We want to thank Kim for her many years of dedicated service!

After receiving feedback from a number of our customers, we have revised our Summer Ferry Schedule by adjusting the times for three trips. Please see the highlighted areas in schedule below.

The schedule was designed to achieve two objectives: 1) provide a schedule that met the needs of most customers, and 2) contain or reduce transportation costs. It adds a trip on Friday and on Sunday to accommodate weekend visitors and provides a "layover" period to reduce congestion at Cousins Island.

The schedule allows CTC to manage payroll costs more effectively. Since January, we

have added 5 trips per week to the schedule without raising costs beyond 2010 levels. This can only be accomplished with closer management of other expenses, especially in light of rising fuel costs. Some changes in the schedule, such as having a mid-day break period and earlier end of day trips are cost savings measures.

We understand that the new schedule does not meet all the needs of all residents and visitors. However, we feel it is the best balance between the transportation needs of the community and the need to contain costs and avoid price increases.

The schedule may be subject to further adjustment in the fall.

The need for a layover period will be evaluated. Also, the transportation needs of the school children and Chebeague teachers must be examined. We will be working with the school department on this issue over the summer.

Copies of the new schedule will be printed and available on the boat and bus as soon as possible.

As always, we welcome your input. Call Martha at the Business Office at (207) 846-5227 or the Carol at (207) 319-3061.
