

**A belated
Thank You...**

With all the information we have needed to provide you over the last few months, we have been unable to properly recognize the contribution of two board members who retired in 2020.

Specs Eaton served on the board from 2008-2011. He rejoined the board in 2014 and served until 2020. While on the board, Specs served as both Treasurer and Vice President. Specs played an important role while on the CTC board. He was very active as a member of the executive committee.

Pat Murray served on the board from 2017 to 2020. Pat was there when we needed him most—when we were retiring our old buses and purchasing new ones. His knowledge and willingness to devote time were invaluable to the company. He helped us evaluate and purchase the busses. He continues to offer his help as needed.

Thanks Specs and Pat!!

What's New at CTC?

**Management Changes
at CTC**

As previously announced, Matt Ridgway assumed the position of General Manager on 11/23. Matt most recently held the position of Assistant General Manager. He has been training for the GM position for many months—in anticipation of Carol Sabasteanski's retirement. *Please join us in congratulating Matt!*

Service Cancellation

While CTC recognizes that many people rely on our service to get to school or work, we must always consider safety first. Please review our policies below and use one of our communication channels to stay informed about service interruptions.

Bus Service: If school is cancelled in Yarmouth, the first bus of the day is automatically cancelled. There will not be a notice of this trip's cancellation. Any other trip cancellations will be communicated as soon as possible.

Ferry Service: When making a decision to cancel a boat trip, we will consider not only the ability of the boat to run in the storm, but also our passengers' ability to safely board the boat. Therefore, conditions where the wharves, ramps, and/or floats are unsafe will result in a ferry trip cancellation. This would include; high

winds making the floats rock dangerously (usually at Cousins), storm surges that put the top of the Stone Wharf under water, and excessive ice and/or snow on ramps, floats, or wharves.

Until the channel at Chebeague is dredged, CTC will cancel ferry trips during extreme low tides to avoid ferry grounding.

Scheduled low tide cancellations are posted in the Island Calendar 30-60 days in advance. **For all cancellations,** the information will be posted to the CTC's website and Facebook page. An email will also be sent to Chebeague.org for posting. Emails and texts will be sent to those who registered on the cancellation page of our website to receive notification.

Safety First!!
