

Chebeague Transportation Company

Weekday Commuter Winter Parking Area

The Weekday Commuter Parking area is reserved for customers commuting FROM Chebeague daily Monday—Friday during normal work hours. *(The primary purpose of designating this area for commuters is to improve our snow removal efforts. By having this area clear during the day, the snow plow can more effectively maneuver and clear significant areas of the lot. Based on the Parking Permit applications, there are more than 30 cars that qualify to park in this area.)*

Persons who identified themselves as qualifying commuters received a special designation on their parking permits. **If you do not have a “star” on your permit, please refrain from parking in this area. If you qualify to park in the commuter area but do not have a “star” on your permit, please contact our office at 846-3700.**

Luckily, we have had a very mild winter thus far. However, we ask all customers to respect the restrictions for parking in this area from November 1st to April 1st each year.

Thank you for your cooperation. To better identify the restricted area, orange cones have been placed on either end of the restricted area.
