

What's New at CTC?

Using our Services

ANNUAL MEMBER MEETING

Our annual member meeting will be held on Saturday July 15th at 9 AM at the Island Hall.

Since we converted from a stockholder company to a nonprofit in 2014 we have added over 500 people to our membership! We hope many of you will be able to attend the meeting.

The agenda items typically include a review of prior year financial performance, election of directors, and a president's report. This year we will give you an update on our project build a second ferry.

If you would like to become a member simply notify the office and provide name, address, and \$40 membership fee per person.

See you there!

The good weather seems to have finally arrived, and so have many of our seasonal residents. Welcome back!

During the spring we have lots of freight as folks prepare for the summer. When you have a large number of freight items, please consider delivering them to the wharf in your own vehicle and then returning to Route One. The CTC buses are expected to transport personal freight (luggage, groceries, etc.) only. Other items (e.g. large tools, building supplies, large household items) should be delivered directly to the wharf.

Many people now have personal carts that they take to Route One. Please understand that the bus driver may ask you to unload your cart to load packages on the bus. The drivers are not expected to lift very heavy objects and carts take up a lot of space in the rear of the bus.

Bus drivers are expected to leave the lot on schedule. The driver uses his/her discretion

regarding waiting for a vehicle. However, if the bus is loaded with passengers and freight you should not expect the driver to delay departure.

Please remember to keep your pet off the seats and have dogs leashed.

CTC provides carts for transporting freight. The carts weight limit is 100 pounds. Overloading the carts results in damage. Our driver/parking attendant Ted McKeen spends lots of time trying to repair broken carts. Please respect the weight limit.

At the wharf, please stand back from the ramp and along the sides of the wharf to allow disembarking passengers room to get by.

Important safety reminder!

Never walk or drive behind a bus that is preparing to leave the wharf. The driver has a limited field of vision in his mirrors.

Planning events on the Island

If you are planning an event where more than 15 people will be traveling to the Island, please let the office know so we can be sure to be properly staffed.

Thank you!

PLEASE DRIVE SLOWLY INTO THE COUSINS ISLAND PARKING LOT. VEHICLES MAY BE EXITING THE BARGE.

Passengers on the Barge

Coast Guard regulations permit the barge to carry a maximum of six passengers. One passenger per vehicle may ride the barge free of charge. Space permitting, more passengers may ride the barge at the Captain's discretion. However, there will be a fee of \$10 per extra passenger.

Hazardous Material on the Ferry

CTC can transport up to ten small gas powered appliances on the stern deck of the Islander (Up to 49cc in engine size). CTC cannot transport gasoline containers of any size if they contain gasoline. Kerosene can be transported. CTC cannot transport liquefied natural gas or propane in any size. Contact the office for barging items that cannot be transported on the ferry.

June Birthdays

Collin Winkel - 6/5
John Wilkinson - 6/12
