### Islander Going to Boatyard

The Piper comes home on 10/26 after a very successful season at the Maine Maritime Museum. On 10/28 the Islander will be hauled at the Royal River Boatyard to undergo a Coast Guard "hull inspection" (an inspection that must be done every two years) and to have her engine "rebuilt". The Islander's engine is 13 years old and has run approximately 27,000 hours. It is showing signs of wear and, after much consideration, the Board of Directors voted at their October meeting to be proactive and rebuild the engine now- in compliance with the company's mission "to provide safe, reliable, efficient transportation for Chebeague Island". The Islander will be at the boatyard for several weeks while this work is being done. During that time, the Piper will be in service. While we understand that the Piper is not as comfortable as the Islander, the crew will make every effort to make the boat ride as pleasant as possible. Thank you for your understanding.

### Parking applications due 11/30

Applications for annual parking permits were mailed October 15th to current permit holders. The applications are also posted on the "Parking and Bus Service" page on our website. We are pleased that once again there will be no parking fee increase for either parking lot for customers paying by cash or check. Parking spaces are limited at the Cousins Island lot and we receive more applications each year than available spaces. Priority is given to families living on the Island year round, especially those who commute. When you complete your application, please provide any information you feel may help us in our decision process. Applications received after the due date will not be considered for a Cousins Island spot. Customers who are more than 30 days in arrears for payment (of any kind) will not receive a Cousins permit and will only receive a Route One payment when the account is paid in full.
