

CHEBEAGUE TRANSPORTATION COMPANY

June 2021

What's New at CTC?

Preparing for Summer

Summer Office Hours

Monday - Friday
9am - 4pm

New Monthly and Annual passes available starting June 1!

We are excited to begin offering both monthly and annual ferry passes to year round and summer residents beginning June 1. These passes offer the best value and convenience for our passengers using our service regularly. We will issue a photo ID that pass holders will be required to show the deckhand when boarding the ferry. Please call the office for details on how to purchase these passes.

The good weather seems to finally have arrived, and with it, so have our seasonal residents. For many, this will be their first time back to the island in over a year. Welcome back!

This summer, CTC is operating with some new procedures. Tickets for the ferry must be purchased in advance, either through our online store (chebeaguetrans.com) or by calling our office. We are not selling tickets on the boat. Tickets are collected prior to boarding the ferry. You must have a ticket or have purchased tickets prior to boarding! Please wait at the top of the ramp for the deckhand to welcome you to board.

Some things remain the same. Summer on Chebeague = Passengers+Freight. When you have a large amount of freight to bring to the Island, please consider **either using Casco Bay Lines'** very convenient freight service or delivering the freight to the Cousins Island pier in your own vehicle before returning to the Route 1 lot to park and catch the bus. Our busses have very limited room for freight.

We welcome pets on our busses and ferries. Please remember, they are required to have tickets, too! Also, please make sure dogs remain under control, on a leash **and not on the seats. We've had some close calls with excited dogs nearly knocking small children over... not something anyone wants to happen!**

Our bus drivers and captains are expected to leave on schedule. Please plan accordingly to arrive with plenty of time for unloading and parking. Use caution when driving to the Stone Wharf, driving in our Cousins lot and to the pier on Cousins Island. These are all very congested places with lots of pedestrians and small children walking around.

Once on the pier, please stand back from the ramp to allow disembarking passengers room to get by. The boat crew will load freight and call people with bicycles down first.

We are excited to see everyone coming back. We wish everyone a safe and happy summer!

Changes in Bus and ferry capacities

With the State ending capacity restrictions both for inside and outside spaces, we are able to return to our pre-pandemic capacities on both our busses and ferries!

Masks still required!

The safety and health of our passengers and employees continues to be our top priority. Because of this and in order to comply with federal law that requires all people using public transportation to wear masks at all times, CTC will continue to require masks be worn on our ferries and busses. Passengers who do not comply are in violation of federal law.
